Daydream with Robert Lee

Write an article about "wellbeing" products that Robert Lee supplies to the bathroom industry.....OK, here we go,

The first thing that sprang to mind was a naked woman relaxing in a whirlpool bath sprinkled with rose petals and surrounded by candles and shades of pastel.....concentrate man.....

Right I'll stick to the idea of the whirlpool bath, I'm still trying desperately hard to get the woman, who incidentally is now getting out the bath, out of my head. Oh yes the bath, which bath is she in? I hear you all say. Well, let me tell you. For the purpose of my little daydream the bath is a very.....who cares.... she's naked! Oh no, she's a he, I am sooo confused now, the wife will not be happy.

The truth of the matter is that, these days, bathrooms are not just a functional room in the house, but very much a sanctuary of relaxation, a place to soak away the trials of the day or invigorate and prepare for the challenges ahead. One way or another I hope you're going to use one!

Our job, as suppliers to the industry, is to bring you affordable opportunities to fulfil your clients needs, and boy, can we do just that.

Aquaestil baths offer a wide range of Whirlpools, starting with the 6 Jet system all the way up to the Ultimate 14 Jet Eclipse system. There is even a range of Air Spa massage baths with an optional Blue Ray System that will allow you to adjust the speed of the air jets. Each bath is tailor made to you or your client's specification and can be delivered within 10 days.

Also available from April 2008 is the Aquaestil Aquamaxx super reinforced bath. With a glossy, warm to the touch, anti bacterial finish, it gives you the strength of cast iron and the additional thermal insulation – so water will stay warm right to the end of even the longest soak. You want lights as well? No problem. What colour would you like? Green, orange, blue or clear? And a headrest as well? Ok. And the best bit of all, is its value. 400 words the magazine said, 391 is close enough for me, anyway, I have a daydream to finish.
