

Best of Italian

Azzurra, Letting you into a little Italian secret

To showcase some of their more exclusive products and suppliers, Robert Lee have opened their newly furnished Blue Studio showroom at their head office and main distribution centre based in Waltham Abbey, Hertfordshire.

The showroom is designed to allow its bathroom retailers to view some of these exclusive, exciting and innovative products prior to placing them on display. One such brand is Azzurra, secretly one of Europe's most innovative manufacturers of bathroom sanitaryware.

Azzurra has the experience and expertise to meet the demands of a continually changing market, with the ability to anticipate trends - from the classic to contemporary.

The designer ranges offer expression and creativity to produce a collection of products in a modular form, allowing infinite possibilities for arrangement.

The collection represents the designer's interpretation of evolution in the bathroom space, moving it from a simple utilitarian place to an area of tranquillity and well being.

Clas

From a collaboration with the designer Claudio Papa comes Clas, a collection of sanitaryware and furniture to quite simply be proud of.

Claudio has used simple and modern lines in his design, which helps to create a balance of light and shade throughout the range.

Clas extends its proposal with three sizes of wash basin: 55-65-75cm. All models can be mounted on a worktop, wall-hung, pedestal or semi-pedestal. The taps can be mounted on the wash basin or on the wall with a one tap hole version and, to complete the look, the wall-hung model can be completed by a chromed towel-holder.

B.Side

From the portfolio of designer Claudio Papa, B-side offers an array of square designs that will complement any modern bathroom. Compose your bathroom to suit your very own needs from the range of geometric pieces available.

K-One

Designed by Massimiliano Cicconi and Massimiliano Braconi, K-One - with its angular, extreme sharp lines, is a stunning range that includes close coupled pan and cistern, wall hung pan, wall bidet and includes two sizes of wash basins. The system comes complete with a range of modular furniture allowing you to create a stunning, contemporary look.

Appointments can be made to view the Blue Studio, please contact Ann Patterson on 01992 703236 or by e-mail at akp@rlee.co.uk.
