

Shower valves are available in all Steinberg collections and there's a wide selection of fixed and hand held heads, body jets and diverters.

The ceiling mounted Tropical Rain series delivers a dramatic downpour. The flat flush mounted head is available in circular, square and rectangular shapes and is ideal for a luxury wetroom.

High quality brassware from Steinberg is now exclusively available from distributor Robert Lee. Design led and made in Germany, the range includes basin, bath, bidet and shower fittings with matching accessories. All products are fully tested and meet UK standards.

tap into style

Steinberg offers seven different ranges of taps, all with matching accessories. Every range includes a full selection of bath, basin and shower fittings.

The Series 135 range features elegant flat spouts combined with a chunky body.

Series 180 is one of Steinberg's latest designs and has a sweeping, curved body. The range includes a full selection of bath, basin and shower fittings plus matching accessories from Series 480.

The Steinberg brand is relatively new in the bathroom industry and was established by experienced brassware professionals. The company is growing fast and is currently active in 30 countries. There's a strong design ethos and a belief that form and function should work in harmony - so fittings don't just look good, they also work well.

Steinberg currently offers seven ranges of taps plus showers and accessories. All taps are fitted with Sedal low noise ceramic cartridges and chroming is top quality to give a good deep shine. Products carry a two-year guarantee.

Steinberg is exclusive to Robert Lee in the UK. For more information call 0800 376 5554.
